

#1. IDM (Stands for Index Memory)

These are the figures by which the total ability of a horse is measured by a Speed rating and "Memory"(The last race's track condition,condition of the horse on the day of the race, etc).

We also check objectively on the condition of the horse and horse equipment which are done by our paddock staff, who are at the same spot every time at the paddock.

So, the horse race is not just "Time", but we think "Memory" is just as important. This is our main theory.

*IDM(Index- Speed rating /Memory)

Base Time	The Base Time of different tracks, conditions, and distance
Track Difference	Turf and Dirt conditions(Fast, Wet tracks)
Jockey's weight	Various jockey's weight depending on races
The Last race	Bad gate, interference, dropping of hooves, how it won, etc...
Where it raced	On the rail, inside, in the middle, outside, wide out, etc...
Pace of the race	Pace of the last race, the first 3 furlongs/5 furlongs, the last 3F/5F

#2. The hoof

We differentiate the sizes of hooves of each horse in 4 basic categories. They are Big, Medium, Small, and Thin. We also have 3 basic categories for the shapes of the hooves. They are High, Normal, and Shallow. If a horse is classified as "Medium-Shallow", that means the horse's hoof is medium sized and shallow. In a wet or rough turf, high hooves have an advantage over shallow hoofs. Although on the dirt, this is not so.

#3. Ability on wet track

These marks (, ,) show the ability of a horse in wet tracks by its records and the hooves.

The shape of hooves	Race record in wet conditions				
	1st	2nd	3rd	Out of money	No experience
High					
Normal					
Shallow					
Not known					-

- Likes wet condition
- Normal
- Does not run well in wet tracks

These marks are indicated according to the track (turf or dirt) on which a horse will be running. Even though a horse does not have a wet track record, we can check its ability on wet conditions by the shapes of its hooves.

#4. Favorable distance

This shows the most favorable distance of a horse

Such as: ·Sprint ·Mile ·Mid-Distance ·Long-Distance

#5. Basic Odds

The total average of odds (Win and Show) calculated from Kansai and Kanto racing forms(Kansai 6 forms and Kanto 8 forms).

#6. Class

We divide horses into different classes by its abilities.

Ex. ·Turf OPA ·Turf OPB ·Turf OPC

#7. How it will run today

This will indicate how a horse will run today judging on the appearance from the last race's paddock.

AA	The horse is a sure winner
A	The horse can battle for a win
B	The same as the last race
C	The horse might be a little tired from the last race
D	The horse is in a bad shape
?	The horse with not good breathing

Note.
These ratings can be affected by long lay-offs.

#8. Workout arrows and ratings

These arrows and ratings show workout evaluations of which we gather from various racing forms and are simplified by our own evaluation system.

The 5 different arrows show conditions of horses by judging their workouts.

	In perfect condition
/	On the way up
	The same
\	On the way down
	In bad condition

Ex. Workout -10 /

The arrow is going up, but the rating is -10(- means negative). The arrow is calculated by information of various racing forms. The rating is calculated by a particular handicapper. Sometimes, an evaluation might be like this, but we urge you to focus on the arrows instead of the ratings on such evaluation.

#9. Stable arrows and ratings

These arrows and ratings show reliabilities between various racing forms and stables which we simplify it into our own evaluation system.

The 4 different arrows show the reliability of each stable on a particular horse.

	Ready for a win
/	Very high on its horse
	So-So chance
\	Also-run at best

Ex. Stable -10 /

The arrow is going up, but the rating is -10(- means negative). The arrow is calculated by information of various racing forms. The rating is calculated by a particular handicapper. Sometimes, an evaluation might be like this, but we urge you to focus on the arrows instead of the ratings on such evaluation.

#10. Jockey's place percentage

This percentage shows how reliable an A jockey is with a B horse, thus makes it easier to evaluate if the jockey and the horse is well-matched or not.

#11. Racing position

PM	Pace Maker	S	Stretch Runner
FR	Front Runner	F	Can run at any position

#12. Horse equipment

These indicators mean a change in horse equipment from the last race and is a Potential Big Money horse equipment change.

no mark	Snaffle Bit
B	Blinkers
BA	Bandages
BB	Bridge Bar
BG	Bit Guard
BH	Billy Houghton Bit
BI	Bit Burr
C	Chain Shank
CB	Carve Bar
CH	Cheek Snaffle Bit
CP	Cheek Piece
D	Dee Cheek Snaffle Bit
E	Eggbutt Snaffle Bit
EB	Egg Bar
ER	Equi Rocks
G	Lip Chain
GR	Gene Rieggle Bit
H	Chifney Anti-Rear Bit
HB	Half Bar
HO	Hood

J	Jaw Bit
KN	Kineton Noseband
L	Japanese Lever Bit
LN	Lever Noseband
M	Martingales
MT	Mouth Tie
N	Noseband
NO	Norton Perfection Bit
NR	New Equi Rocks
NS	Neck Strap
O	Sure-Win Overcheck
P	Paddock Blinkers
PA	Snaffle Bit Poti
R	Ring Bit
S	Shadow Roll
SL	Sliding Mouth Bit
SB	Spoon Heel Bar
T	Tongue Tie
U	Universal Bit
3	3-ring Snaffle Bit
